Speaker protection with uPC1237

I was using IC **uPC1237** for speaker protection in almost all my power amplifiers, because schematic is very easy to build with few external components.

Here is the latest version of the schematic that I use:

Здравей, как мога да се свържа с теб искам да поръчам една такава защита, интересуваме цена и дали ще работи при 38VDC.

Поздрави, b0n3v :)

Виж на страница "About".

Бон Бонев February 24, 2014 at 8:04 PM

С голямо закъснение пиша, но човека е много точен, защитата работи коректно, без проблем вече доста месеци, добра покупка.

Препоръчвам!

Христо February 25, 2014 at 1:54 AM

Благодаря!

I haven't tried it yet cause I need the parts list.

Can you please post them.

Thanks much
